

## Invest in our Planet

All life on earth is derived from carbon. And yet carbon (dioxide), an absolute threat to life, accounts for 76% of all greenhouse gas emissions. Carbon Neutrality is vital for mitigating fatal consequences of climate change. This Earth Day let us aspire to achieve our net-zero goals by investing in our planet to restore sustainability and peace. [Watch a video](#)

## 17 SDGs, 1 Globe

From working towards eradicating poverty to mitigating climate change consequences, a collaborative effort is needed for sustainable development. Keeping in mind one of the most important aspect of development - Leave No One Behind, we all need to do our part towards uplifting the most vulnerable.

## Partnership Announcement

FloCard is pleased to welcome PDAG - Policy & Development Advisory Group, as a new partner and collaborator. Their experiences and network will offer FloCard all the wings that it needs to balance between Academics, Awareness and Action. With PDAG on the team, FloCard's #BetterPlanetTogether Campaign will see a valuable amplification.
