

## #SUSTAINABILITY

The world we deserve

## How to achieve sustainability

By achieving Environmental Justice and Social Justice.

Environmental Justice deals with equitable distribution of environmental benefits and Social Justice is the fair equitable distribution of wealth and opportunities within a society. [Continue Reading...](#)

## Practice first and Preach later

A mindset for saving even a single drop of water; to walk or cycle to near about places than burning fuel; to adopt digitisation replacing everything paper-based. A perspective we often miss is that every individual and every effort counts. None goes in vain.

## mindset

*/ˈmaɪn(d)seɪt/*  
noun

the established set of attitudes held by someone

see also: outlook

## Every rationale has made this excuse:

How can we necessary point this particular flood or hurricane to have occurred because of climate change?

Maybe we can't.

**But are you starting to see a pattern of extreme weather events?**
